## BURIED WEALTH.

Valuable Lead and Zinc Veins in Bourbon To Be Developed.

Messrs. O. H. Winegar, E. E. Posey and S. Short, of St. Louis, who represent St. Louis capitalists worth millions of dollars, and Mr. W. D. Rippetoe, of Virginia, believe that there is untold wealth lying undeveloped near Paris in the veins of lead and zinc. This opinion was held for thirty-five years by Dr. Wash Fithian, who sunk the shaft in East Paris to work a lead mine. This work was discontinued because at that time there was no known process of separating the lead from the zinc.

Mr. Rippetoe, who came to Paris in August for a visit to his nephew, R. B. Rippetoe, of the L. & N., saw evidence of the existence of lead and zinc while out for a walk one day. Being a geologist and assayer, he made an investigation and an assay of specimens of the ore showed evidence of deposits of lead and zinc, amply sufficient for manufacturing purposes. Mr. Rippetoe and Dr. Fithian succeeded in interesting the St. Louis capitalists, which resulted in the visit of their representatives.

The St. Louis gentlemen were so well satisfied with the assay and the prospects that over one thousand acres of land were leased and options were secured on over 1,300 acres. They also arranged for the erection of an educational furnace of one-hundred ton capacity to test and work the ore.

A ten-ton furnace would have done the work satisfactorily, but the capitalists had confidence enough in the ore to contract for the one-hundred ton furnace. This furnace will be erected on the Isgrig property in East Paris, which is a further and fitting compliment to Dr. Fithian, that being the site of his start in the work many years ago.

Work will be commenced at once on this furnace, which Mr. Rippetoe says will be completed within sixty days, and will give daily employment to five or six hundred men, besides a corps of from twenty to thirty experts in the manufacture of metal wares.

The gentlemen interested in the enterprise are backed by ample capital. It will readily be seen that it will be a vast benefit of Paris. The operation of a plant employing a large number of men will cost immense sums of money, the larger part of which will be spent in Paris. The men will, of course, move their families to Paris, which should add largely to the population of the city.

It is hoped that Dr. Fithian, Mr. Rippetoe and the capitalists will be amply repaid for their interest in the enterprise and their faith in it.

Dr. Fithian yesterday showed THE NEWS a copy of a lease of some of the property, taken out more than thirty years ago.

## A Boon to Business and Professional Men.

The system of physical training, as taught by Prof. C. Rucker Adams, who is at present organizing a class among our citizens, affords the best possible advantages of scientific bodily exercise. From all over the country come words of praise from pupils who have enjoyed this special course. Large and enthusiastic classes at Cleveland, Chicago, Richmond and Winchester attest to the merits of this splendid work.

We trust that many of our citizens will adopt this system and there is no doubt but what each will be as appreciative of this invaluable new course of exercises as others who have investigated the same. Classes for ladies and children conducted by Mrs. Adams will also be organized. The professor will call and explain his work to you.

Let every one desiring the best physical care join this class. 11

## OBITUARY.

Mrs. Annie Cary Ward Clay, aged about twenty-eight, died Wednesday afternoon at the home of her husband, Ezekiel P. Clay, Jr. The deceased was one of the most beloved young women in Bourbon and her demise has brought sorrow to every person of her acquaintance. She was a daughter of the late Judge J. Q. Ward, and was one of the loveliest young ladies in Kentucky. She possessed a beautiful Christian character, and her personal beauty was enhanced by her refinement, gentleness and amiability. She was a devoted member of the Second Presbyterian Church, of this city, and her faith was a leading trait of her character. The deceased is survived by her husband and a babe several days old, besides her mother, Mrs. Mary E. Ward, and brothers, Messrs. J. Miller Ward and J. Q. Ward, Jr. The funeral services will be held at the residence this morning at ten o'clock by her pastor, Rev. Dr. E. H. Rutherford. Burial at the Paris cemetery. The pall-bearers will be Messrs. Woodford Clay, Brutus Clay, Buckner Clay, Cary Ward, Joe Ward, Catesby Woodford. The tenderest sympathy of a legion of friends goes out to the sorrowing relatives in their bereavement.

I wish to inform the public that I will continue making bread, and will have a wagon running every day. Look out for it. Any patronage from Mr. Rion's friends will be gratefully received by Mrs. J. M. Rion.

## Removed to Georgetown.

Tuesday afternoon Caleb Powers, John Davis, Henry E. Youtsey and "Tallow Dick" Combs were transferred from Frankfort to the jail at Georgetown, where they were placed under a guard of deputies. On the train Caleb Powers made the statement that even should the Supreme Court decide that Taylor is Governor he will not attempt to use the pardon issued him by Taylor when he was about to flee, but will stand his trial.

It is said that the attorneys for the prosecution have decided to elect to try the indictment against Youtsey first among the cases set for trial July 5. It is believed Youtsey now realizes that he has been deserted by Taylor and Finley and other leaders and that he will tell all he knows when he goes on the stand. If he does tell it is the opinion at Frankfort the biggest sensation of the trial will be developed.

Mrs. Youtsey is at Georgetown, where she will remain the guest of friends till the trial is over.

JUVENILE APPAREL.

Our Boys' Clothing Department has ever been the most interesting place in town for parents and boys. Our efforts in the preparation of our stock for the forthcoming season have been crowned with unqualified success. Good taste, exclusive style, snap and serviceability, make every garment in our juvenile department—from the beautiful, fancy suits for the little boys of 3 to 8 years of age, to the tasteful patterns in Cheviots, Cassimeres, Tweeds and Worsted for the big boys and young men, aged 14 to 19 years.

THERE ISN'T A GARMENT TO WHICH YOU CAN TAKE THE SLIGHTEST EXCEPTION

either in style, quality or price. The question of price has been settled, we believe, to your satisfaction, long ago. Nothing that we offer can be sold, quality considered, as cheaply by any other house in town. Bring your boys, big and little. A fine line of wash suits.

If you cannot read this small print at a distance of 14 inches your eyesight is failing and should have immediate attention:

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centered and made of purest material, set in frames of the highest elasticity and consequently of greatest durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy imperial spectacles of a reliable, skillful dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.

Next visit—Thursday, May 31, 1900. Hello, 170.
